DR. SONIA QADIR, *Owner*

Melville Medical Care

1 Somerset Street
Huntington • 271-3075

Dr. Sonia Qadir loves seeing patients leave her facility healthier, thinner, looking and feeling completely rejuvenated. Her patients love Dr. Qadir, her techniques and their transformative results. Drawing on her medical background, combined with extensive training in Botox injections, fillers, and lasers, Dr. Qadir opened Melville Medical Care in 2011. This innovative practice provides complete internal medical care, a weight loss program, and a full suite of medical spa treatments all in one location, under the direction of Dr. Qadir.

After graduating from Columbia University in 1996 and Ross University Medical School in 2001, Dr. Qadir completed her residency in internal medicine at Mount Sinai School of Medicine. She received board certification, and began her career at the Huntington Medical Group. Dr. Qadir has seven years of hands-on experience and treats a broad range of acute and chronic illnesses, including bronchitis, sinusitis, pneumonia, hypertension, diabetes and hypothyroidism. All tests, blood work, EKG's, echocardiograms and sonograms are performed in office.

Dr. Qadir decided to diversify her practice by adding aesthetic services, including laser hair removal, Botox, Juvederm, microdermabrasion and photofacials, which help eliminate sunspots and

redness. She also offers a free consultation to prospective patients. "The patients who come in seeking to improve their health and appearance with my weight loss program as well as with Botox and fillers add a lot of excitement to my daily routine," says Dr. Qadir.

Treating her patients with respect and giving them the proper time and attention earned Dr. Qadir a 2011 Patients' Choice Award. "I started my own practice because I love the one-on-one relationship with my patients," says Dr. Qadir. "When patients walk into my office, I don't need to look at their chart to know their name. Health care has changed so much and I am working hard to keep that close relationship with my patients. I want them to know that I truly care about their health."

"I have the best of both worlds in my practice--the internal medicine side and the medical spa side," says Dr. Qadir, "I treat patients' daily health problems and help them look good, too. Who can beat that?!"

Start on the path to improved health, weight loss and a smooth, hairless, flawless you! Call (631) 271-3075 for more information and an appointment. Or visit Melville Medical Center at 1 Somerset Street, Huntington Station.
